Am I maximizing the revenues?

Am I minimizing the losses on account of complex regulations?

Am I economically managing the cash flow?

“The solution is
PTS-Genco”

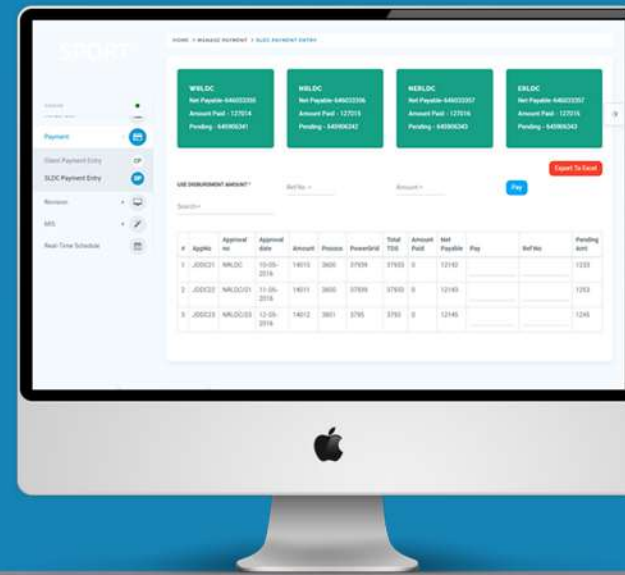

ABOUT PTS-Genco

It is a Contract Management and Scheduling Solution which manages the transactions from front-to-back office.

With the focus on the power generation companies, the solution supports management of multiple trades (Long, Medium & Short Term) and provides complete power scheduling across system operators in multiple markets (Bilateral & Power Exchanges).

KEY MODULE PTS - GENCO

1

Contract Management Solution (CMS)

The module integrates the various aspects of power trade i.e. from contract entering to scheduling and bills generation to settlement. It manages the complete life-cycle of the transaction.

Benefit:

- Efficient management of contracts with multiple parties under various markets.
- Optimal management of cash flow.
- Automatic confirmation and settlement of trades.
- Enhanced communication with market participants including system operators.

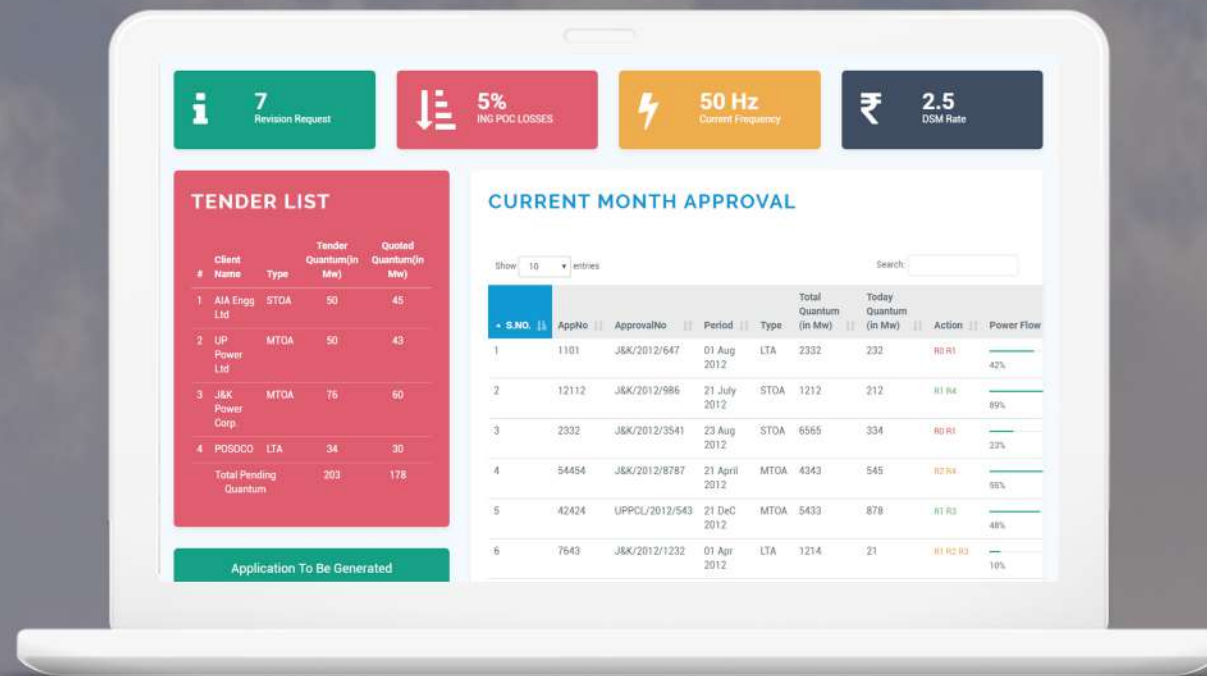

2

Scheduler:

The module takes care of scheduling of power trades. It performs Scheduling with a sub-hourly granularity on a daily basis. Transactions are automatically updated and displayed in real-time as trades are executed or amended.

Benefit:

- Simplify complex scheduling with one tool to manage applications with multiple system operators.
- Quickly identify the imbalances in the trades and provides real time alert.
- Suggest corrective action to be performed to arrest imbalances.

VALUE DELIVERED PTS-GENCO

One solution from front-to-back office including scheduling

Optimize costs and maximize revenue from operations.

Reduce manual effort in managing transactions by automating processes.

Improve control and add transparency into all aspects of the trading business.

Realize more profits and minimize penalties.

State of Art technology to support decisions.

Single dashboard to visualize and analyse the entire Power Trade Portfolio.
